

Jesús Enrique Quevedo Torres

Principal DevOps Engineer / SRE / AWS / Kubernetes / Cloud Migrations

Email: jenriqueqt@gmail.com | Phone: +525587972475 | Location: Mexico | Open to Relocation (US & Canada)

SUMMARY

DevOps/SRE Principal Engineer with 9+ years of experience building scalable, secure, and reliable cloud platforms across AWS and OCI. Expert in Kubernetes, Docker, CI/CD automation, observability, incident response, and large-scale cloud migrations. Proven impact reducing deployment times, improving system reliability, and leading mission-critical DevOps transformations.

TECHNICAL SKILLS

- **Programming:** Python, NodeJS, Java, Shell
- **Cloud:** AWS (ECR, EKS, ECS, S3, RDS, Lambda), OCI DevOps, IaC
- **DevOps/SRE:** GitHub Actions, Jenkins, Docker, Kubernetes, Terraform, Artifactory, SonarQube, Snyk, Ansible
- **Observability:** Dynatrace, Grafana, CloudWatch, Kibana
- **Mobile CI/CD:** Fastlane
- **Certifications:** Oracle DevOps Certified
- **Additional Skills:** Flutter, Dart, Flet, APEX

PROFESSIONAL EXPERIENCE

APR 2025 – Present | Principal DevOps Engineer | ORACLE

- Designed and automated secure CI/CD pipelines using Jenkins, Ansible, Python, PL/SQL, and Shell.

- Led major migration initiatives from on-prem environments to Oracle Cloud Infrastructure (OCI).
- Implemented repository governance, branch strategy, and workflow automation using Visual Builder Studio.
- Developed automation tooling in Python to reduce manual deployment effort.
- Reduced CI/CD execution times by 35% through pipeline architecture redesign.

FEB 2024 – APR 2025 | DevOps & L2 Support Engineer | Santander Bank USA (TCS & Cervantes Group)

- Ensured high system stability across AWS and on-prem platforms through incident response and troubleshooting.
- Utilized Dynatrace, Grafana, Kibana, CloudWatch, and Lambda for performance and reliability analysis.
- Improved application reliability through root-cause diagnostics and Python automation workflows.

OCT 2023 – JAN 2024 | Senior DevOps Engineer | ALBO

- Implemented high-availability infrastructure using Kubernetes, Docker, EKS, ECS, and ECR.
- Automated deployments with Jenkins and Python, improving consistency and reducing human error.
- Migrated CI/CD operations from Bitbucket to Jenkins to standardize engineering workflows.
- Integrated Terraform IaC and GitHub Actions into multi-service deployment processes.

JUN 2022 – OCT 2023 | Head of DevOps | MACROPAY

- Defined and scaled DevOps workflows across mobile, serverless, MVC, and middleware systems.
- Managed AWS releases using Lambda, EKS, ECS, EC2, S3, RDS, and DynamoDB.
- Automated pipelines with Jenkins and Terraform, reducing release time from hours to minutes.

- Oversaw platform administration including Firebase, Apple Connect, and Google Play Console.

OCT 2021 – JUN 2022 | DevOps Lead | TV Azteca Digital

- Built CI/CD workflows for iOS and Android applications using Fastlane, AWS, GitHub Actions, and SonarQube.
- Automated multi-pipeline deployments using Jenkins, controlled via SmartSheet triggers.
- Implemented branch protection policies and build automation using Python and NodeJS.
- Increased mobile release frequency from weekly to daily.

JAN 2018 – OCT 2021 | DevOps Area Founder & Developer Lead | AIONTECH

- Established and led DevOps processes using Docker, Jenkins, Artifactory, and SonarQube in AWS.
- Developed backend services using Java EE, SpringBoot, Camel, Hibernate, and JPA.
- Built full-stack platforms for BFSI, retail, and government clients.
- Managed SQL procedures for Oracle, MySQL, and MSSQL.

JUL 2015 – JAN 2018 | Tester & Deployer | AIONTECH

- Performed testing and deployments for financial institutions including HSBC and InvestaBank.
- Built Selenium automation frameworks for QA workflows.

EDUCATION

Master's in Artificial Intelligence | UNIR–Universidad Internacional de La Rioja | In Progress

B.S. Computer Engineering | IPN–ESIME Culhuacán | 2020

Digital Systems Technician | IPN–CECyT 9 | 2015
